Comments: Dear Payette Forest Supervisor Keith Lannom and staff,

Our family is understandably anxious about the mining , long term effect upon our Idaho environment. The rivers, mountains and forests of this part of the world are what brought us to live and work here since 1983. We see the waste and degradation in the name of corporate profit all over the west. Now with the threat of warmer seasons, and

with the certainty of increased population, we need to be stewards of our natural resources.

We are counting on you to take the responsibility to make sure our future is protected.

Thank you, Dr. Sid and Mrs. Renee Eder
