Title:

Comments: My comments are couched in knowing the Stibnite area well for 74 years. Attending school from the 1st grade thru the 8th grade at the Mines School Facility. My Father was employed as mill Supt, Smelter Supt and lastly as the Chief Metallurgist. The exploration that Midas Gold has done is most thorough, the personel are very capable. The possible development of a long term mine operation is a benefit to the State of Idaho, Valley County and all the workers that will be hired. The reclamation of the old operations will benefit tourism and people with hobbies. My hope is that I may live to see the mine come alive again and then the cite put back to its natural state so salmon may again spawn in Meadow CK. Thank you!
