Comments: In the revision plan for the Gunnison and Uncompahgre National Forests, I am request the USFS consider designating these areas as "Dark Sky Reserves".

Light pollution is only getting worse in the United States and to be able to have a beautiful night sky area like the Gunnison and Uncompahgre forests take this initiative for protecting our night skies would, I think, be an outstanding gift for future generations of visitors (as well as wildlife).

Thank you for your serious consideration of this idea. - Phillip Virden
