email: kangaroo@hughes.net

September 4, 2017 Email: objections-chief@fs.fed.us

To: Reviewing Officer Glen Casamassa, Associate Deputy Chief, Forest Service, National Forest System

Subject: Atlantic Coast Pipeline Decision Objection

Objecting to: Your proposal to amend Forest Plans for George Washington and Monongahela National Forests to permit construction of the Atlantic Coast Pipeline

Issues to which objection applies:

As a resident of Augusta County, VA, a member of Trout Unlimited and the Appalachian Trail Conservancy, and a hiker, I am deeply concerned about many issues involving the ACP, including damage to water supplies and streams, including native brook trout streams.

I am dismayed that you will exempt the project from established FS standards. You are required to consider public interest, which you obviously are not.

I have sent numerous letter of objection to FERG, and testified at a FERG[shy] hosted Public Comment Session on February 23 in Staunton, VA. Copies of all are available on request.

Please do not amend the Forest Plans for the George Washington and Monongahela National Forests to permit construction of the Atlantic Coast Pipeline.
