Comments: GMUG draft assessment comment period extension

Samantha and the GMUG planning team,

First, Happy Thanksgiving to each of you! I am thankful for our public lands and for the work each of you does to preserve these cherished places - especially in the GMUG. In light of the importance of the Assessment phase of the Forest Plan revision, as well as the holiday schedule and the unusually large number of stakeholders interested in and affected by the GMUG Forest Plan revision, I am writing to request a 45-day extension of the deadline for submitting comments on the draft Assessment. Please find the attached letter with Outdoor Alliance and Outdoor Alliance Colorado's official request.

Thanks,

Jason Bertolacci
