Adventure Harney, a collaborative between the BLM, USFS, Harney County Chamber of Commerce and Oregon State Parks is planning it's 2nd Annual Skull 120 bicycle race for June 16, 2018. The proposed route crosses through County, BLM, and USFS lands and uses many roads proposed in the Hazard Tree Removal Project Proposal. Last year's race was highly successful and the number of participants is expected to grow from last year. Due to safety concerns for the race organizers and racers, I am requesting that you consider, when you prepare the schedule of work, to defer the routes included in the race until after June 17th. Organizers will need time before the race to mark and flag the routes, racers and organizers will be on the routes the day of the race and organizers will need the day following the race to remove markers and flagging and clean up any debris left from the race.

I've attached a map of the proposed route for the 2018 race. Please, if possible, consider keeping cutters off of those routes for the weekend of June 15-17th.

Thank you.

Mandy DeCroo
