Comments: Continued Preservation of the Forest

Dear Lori,

I'm glad to hear that your team is reviewing the Forest Plan for the Wayne National Forest. I really hope that we continue to sustainably manage this treasure of southeast Ohio--it's our only National Forest!

In general, I support sustainable use of the land. I am not in support of increased drilling and fracking and I hope that your team continues to keep the forest for constituent enjoyment and not corporate benefit.

I have completed the questionnaire from your Web site and have attached to this e-mail. I look forward to reading the forest plan and look forward to seeing the plan in its many phases.

Thanks for all of your efforts!

Danny Sklenicka
