First name: Jay

Last name: Davis

Organization:

Title:

Comments: Here is my personal reply to the wild and scenic river section of Forest Plan revision. Please take time to read and understand that an "on the ground approach" is the only way to give a fair look and decision to the American people, A look from a google map dont cut it and bad data is acquired and that makes bad relationships with the public. This is my thoughts and I am sure you will see what I am saying, or at least some will.
