Comments: I think the proposed items are a wonderful and long overdue addition to the very few resources we have in the Mount Charleston area. The Las Vegas Valley has a very large population with a growing need for outdoor recreational opportunities.

I coach a team of 20 high school kids on a local mountain bike team. We are the very first team of a much larger organization- NICA (National interscholastic cycling association) www.nationalmtb.org

We anticipate having 10-15 teams of similar size by next spring. All these kids are going to need open spaces and quality trails ride on.

We need this project to go forward and also need other similar areas around the valley to follow suit.

Thank you for providing the opportunity to provide feedback on this project.
