Comments: Dear Members,

I have hiked and loved my time in a member of Idaho Roadless areas. The wilderness is unique and irreplaceable. I would like to advocate that the Hoodoo, Mallard-Larkins and Bighorn Weitas (Weitas Creek Roadless Area) be permanently protected wilderness. (The 1987 Forest Plan did recommend that Congress consider these areas that action is long overdue!)

I am very concerned about the greatly increased logging proposals. How will the wildlife, riparian and fish habitats be impacted quite negatively I'm sure. I am also concerned with off road vehicle abuse, including bicycles.

Finally, please prohibit any transfer of federal lands to state or private commercial interests. Your grandchildren and mine will be grateful for foresighted protective view. Thank you.

Cathy Willmes
