Comments: Hello I am yet writing AGAIN for the reopening of the great burn for motorized and mechanical uses. I have written a number of letters to you folks on this subject (probably around 12 since this has been going on). Here I am again pledging my support to reopen the great burn for motorized use. As I understand plan Y gives us hoodoo and blacklead areas back which is great! Surveyor should also be included in this revision to allow motorized use. All of these areas are used basically exclusively used by the snowmobile community throughout the winter. Other parties argue they also use them in the winter, but at best march when the snow is higher in elevation and accessible. I love to enjoy these areas with family and friends year around. Please allow us to ride these areas once again. Thank you!
