First name: Joshua

Last name: Lester

Organization:

Title:

Comments: Alaska is a place where outdoor sports are an imperative part of our lifestyle; people should have the freedom to enjoy the outdoors in the way that they prefer. We should not allow outsiders, environmentalists, and others to try to restrict the safe and responsible use of Alaska's outdoors. Motorized vehicles used in proper snow conditions provide an excellent outlet for Alaskans without damaging the environment. Leaving these areas open to motorized use will ensure enjoyable winters for many Alaskans for years to come.

Thank you,

Joshua Lester
