First name: Walker

Last name: Stephens

Organization:

Title:

Comments: Motorized vehicles(mainly snowmobiles) do no harm to the habitat of the area when proper snow conditions permit, I have ridden many zones in the chugach and without a doubt there are memories that will last forever. To close such areas for us as a snowmobile community would be harsh. There's two sides to everything, but don't take the tree hugging, Patagonia wearing automated bots opinions over true Alaskans inputs.

Thank you.
