Title:

Comments: As a 24 year Alaskan resident, let me start by saying that I love the Chugach National Forrest more then just about anything in the world. It has been my therapist, my fitness coach, my chef and so much more. I am supporting Plan B. To me having motorized access to more of the land around us allows and encourages a broader group of Alaskans to enjoy the outdoors. And isn't that really what it's all about. I love Xc skiing, snow shoeing and hiking, but I also love riding my snow machine. I love it all. And I respect anyone who wants to enjoy the outdoors. Let's make it our priority to get as many people, kids, grandparents, brothers, sisters, moms and dads outside any way we can! Motorized is not all about high marks and horse power, at least not for me. It's about getting off work at 5pm and catching the sunset with my brother at the top of Turnagain Pass. It's about meeting my pilot buddy for a few ski runs at the top of the mountain before he has to get in his plane and head home to take care of his kids. It's about exploring the unknown. It's about getting my ski friend back to her truck so she's not late for work because her binding broke a mile from the parking lot. It's about coming together and sharing the Chugach with everyone. More access means more smiles. Share the love y'all??
