Comments: Hello

I support option B because my parents think it's the best. I also consider motorized recreational activities a traditional use activity in the Chugach National Forrest because it has been like that my whole life.

My dad takes me, my mom, my brother, my friends, and their families to Turnagain Pass in the winter so we can learn how to ride in the deep snow, climb the hills, make big jumps and stay out of avalanche danger.

I love mountain riding because when the wind blows through my helmet it makes me feel like I'm flying.

Also when I'm on top of the hill it makes the term "King of the hill" seem real. or should I say "Queen of the hill". As I get better at riding I hope I could get the chance to ride more of the areas I've seen in my parents videos and pictures.

thank you for your time

Kenzie Ferguson (10 years old)
