Comments: To whom it may concern,

I do not wish to see motorized use in a Chugach restricted anymore then it currently is. My wife and I are skiers/snowmachiners and spend almost every weekend we off work in the Chugach range. My wife is fairly new to the motorized world so having the crescent/carter area open fo motorized use is just as big a must as places like Turnagain and Nellie Juan are to the more experienced riders. It's hard for me to explain in words what snowmachining has done for us, it's almost like it's added another deminsion to our relationship and we look forward to it more and more every year, and someday we hope our kids can enjoy it with us as well. This is a very special place in the world and sadly they are becoming less and less, please let's not let the Chugach fall any deeper in that category .

Thank you for your time

Nick
