I am a resident of Anchorage and Talkeetna. My family and I frequent the Chugach for fishing, hunting, hiking, and snow machining. We also ride elsewhere like the Alaska Range, Talkeetna range, and the Wrangell's. I am in favor and support of Option B of the revised motorized plan. I would also like to see the Crow Creek Pass open to snow machines. We like to ride into the public use cabins and believe the Crow Creek cabin could be utilized in the winter as well. Not only used but have supplies machined up to it for years of needed upkeep and repairs.
