Comments: Hello for service

I support option B. I consider motorized use a traditional use of all land in Alaska.

I enjoy snowmachine riding, It brings out my inner spirit of riding.

I have been riding since I was 3 years old. I'm 11 years old I like riding in the mountains and I have not been in the mountain at turnagain so please don't close it down or all the other places that I haven't been before so don't close any mountain riding places so I can ride get stuck and just have a fun time in my life riding with all my friends and lots of other people that I could ride with.

Thank you for you considering my opinion

Blake Caverly
