Dear Planning Team,

Please accept the attached comments on the Draft Suitability Report regarding potential Wild and Scenic Rivers on the Nez Perce Clearwater National Forest. Thank you for considering these comments, and please feel free to contact me if you have any questions.

Today is the 50th anniversary of the Wild and Scenic Rivers Act, and it is in the spirit of this visionary and popular Act that we offer these comments in support of the incredible streams that are under your management.

Sincerely,

Kevin Colburn

National Stewardship Director
