Last name: Ritala

Organization:

Title:

Comments: This mountain is to be shared for all the people as it always has been every year it gets respected more! If this privilege gets taken away there will be so many smiles taken away it would be terrible to see it happen. People use this to go visit there lost love ones they lost in the chug to so keep that in your head. We people will probably still ride our snowmachines in the chug if it gets taken away because we do not fear you granola eating tree hugging pussy's. Thank you for your time
