Comments: Dear Ms Downie,[shy]

I am writing to share my thoughts on the Chugach Forest Plan Revision #40816

I will try to be brief. I urge:

The Wilderness Study Area Plan should do more than protect the existing area, but back to the Primitive standard, preserving its wilderness character.

Adhere to the land agreement made after the 1989 Valdez spill, keeping the area use strictly for conservation and wilderness.

Enforce the ban on the use of chainsaws by Chugach NF in the WSA areas.

Adopt the modified Alternative D wilderness plan.

Thank you,

Terry King
