Dear Mr. Baker:

I am writing to express my comments about the proposed Union Co. Target Range construction on Forest Service land in Union Co., GA. They are as follows:

1. Assuming that members only of the UCTR will be using the facility, the land will no longer be open to the public.
2. A precedent could be set for other organizations to seek permits on public land for their agenda.
3.
Noise pollution could affect the Appalachian Trail, which appears to be less than one mile south of the site.

Thank you for giving me the opportunity to express my concerns.

Sincerely,

1.
James D. Addeholdt, Jr.
