Comments: ban all hunting and trapping in this area. import some beavers to do their thing. there is nohting like a beaver. if you have none, import them and protect them. clearly you have allowed endlsss assaults on this species and assaulted this forest. you have assaulted this forest owned by 328 million americans to the detriment of all those americans. your work deserves an f minus for its horror. sheer horror!

yo have logged this site to death. you have made alot o f money. who got it? some crooked pol? deny spending national tax dollars on roads that will be used by state residents. let the state come up with the money for roads. and no more road builing int his national site,

sstop all logging and thinning. leave the fish barrtiers. they have been there a long time. stop trying to bankrupt the 328 million of us to fix what is there becaue of the same stupid planning by this same fs. you put the barrier there in the first place. the money to take them down should come vfrom your employees pockets., this agency gavd ethe us public bad information and wasted ou r tax dollars putting up these barriers.

your use of the term vegetation treatment is an example of lying to the u.s. public. hyou are in fact bringing in toxic chemicals which cause cancer and other health issues and spraying this national land witha that cancder causing toxic chemical. you hare in fact hurting the willdife nad ibrds trying to liv ein this forest. you are also hurting every single person ion america with this endless toxic cpplication. stop allthe toxic applications. you are drrowing us in massive amoutns of toxic chemicals which is killing us. cancer in the brain, cancder in the gut, cancer in the breast. when the heell will you stop this massivbe attack on the people of america?stop the massive toxic chemical applications. this comment is for the public recordplease receipt. jean publiee jean public1@yahoo.com
