First name: Cyndi

Last name: Tuell

Organization: Western Watersheds Project

Title: Arizona and New Mexico Director

Comments: The attached comments on the Cienega Creek Firescape Environmental Analysis (EA) are being submitted on behalf of the members of Western Watersheds Project (WWP) who are concerned with the management of our public lands. In addition to being an inappropriate level of National Environmental Policy Act (NEPA) analysis for a project this size and in this particular area, the EA here is insufficiently critical of the need to use livestock grazing in important habitat for wildlife species to "restore" wildlands or to reduce fire risk.

Western Watersheds Project encourages the Forest Service to revise the existing environmental analysis to correct the deficiencies we have identify in our attached comments. We look forward to reviewing the next step in this NEPA process for this project.

Sincerely,

Cyndi Tuell

Arizona and New Mexico Director

Western Watersheds Project
