Comments: I am writing today to show support for continued mountain bike use in the Lion Head region of the Custer Gallatin national Forest. I have personally Mountain biked this region several times and feel it is the only way I would have ever seen the beauty that lies deep in that beautiful Alpine region. We were able to do several 20-mile days of singletrack riding in the Lionhead area alone! This provides a true wilderness experience for any mountain biker that is almost impossible to find elsewhere, and we should do our best to maintain mountain bike access in this area. I support Alternative E for continued mountain bike use. The attached picture is from the Sheep to Mile Creek ride, arguably one of the best Backcountry rides in North America if not the world!
