Title:

Comments: Hello, we would like to support keeping the Lionhead area open to mountain biking. It offers fantastic biking and backcountry solitude and scenery that are important to Montana bikers. Biking have dedicated many hours to maintain trails in the Lionhead. See the attached picture of myself and other bikers working on the switchbacks on The CDT off of Targhee pass. Bikers have worked with the Gallatin chapter of the backcountry Horseman to do annual trail work. We love it up there and are willing to help keep it wild and bike Friendly. Please consider an alternate designation besides Wilderness.

Sincerely

Aaron and Elisa Fiaschetti
