Comments: As a resident of Red Lodge and a native Montanan I love my mountains. I spent a fair amount of time hiking and enjoying both the AB and Pryor mountains. Managing these areas as wilderness is a crucial part to the enjoyment of living or visiting our area. I support the forest service maintaining the existing wilderness and manage the Bad Canyon as a no mechanized and motorized recreation. I have seen the damage both of those cause to wild areas. The Pryors should be managed as wilderness as reflected in Alternative D. These areas especially would be easily ruined by mechanical and motorized vehicles.
