First name: Paul

Last name: Barney

Organization:

Title:

Comments: Colorado native and Gunnison County resident since 1992. I have much interest in the GMUG and protecting our Forest Plan.

Land trades: I am very suspicious of land grabs from businesses and big money. Holding our forests hostage should not be acceptable. Please protect our acreage and don't give it away.

Off-road vehicles/recreation: Please designate specific areas for motor vehicles and protect trails for hikers and biking. Wilderness area designation should be strengthened.

Overall plan direction: Please improve the working draft to protect all of our natural resources including wildlife and rivers. Protect river access and paddling opportunities. Boaters are friends of the Forest!
