Comments: I have lived in the Gunnison Basin since 1974. I love to hike/bike/hunt/fish enjoyed what the GMUG has to offer. I would like to see the GMUG go look at the Sedona (Coconino National Forest) way of paying or taking the control of there area to help pay to play. I feel that there is enough trails, just maintain what we have. We need to keep as much area without trails as possible, WMA would be really nice, more protection for what we have. I hope the respective parties can come together and solve this.
