Title:

Comments: I have hiked many trails in the San Juan Mountains, but today was first hike on Bear Creek Trail with the Great Old Broads for Wilderness group. What a stunning trail and wilderness area, definitely worthy of protection! I strongly support the community conservation proposal and the Bear Creek addition to the Uncompangre Wilderness. We got only as far as the Grizzly Mine and I cannot wait to go farther. I certainly support all the other proposed additionas in and around this area, such as Hayden, Mt. Abrams and Brown Mountains, Baldy. Thank you for finding the Whitehouse area eligible. These wilderness areas are an asset not tonly to our local communities but also to everyone state-wide and actually to mankind worldwide.
