Comments: On 27 September 2019 I sent an email containing four .gpx files to asnftravel.fs.fed.us copying timothy.gilloon@usda.gov. for TMR approval and inclusion. The four files are titled: WMOTA June 2015 Hybrid. WMOTA Wild Horse Trail, APACHE Hannigan Meadow Loop, and SkyHi TH to AZ260. The SkyHi TH to AZ260 is a proposal to extend the Maverick OHV Trail originating in the Show Low Ranger District of the ASNF into the Springerville Ranger district of the ASNF. This is a proposal I have previously discussed with Marcia Pfeleiderer, Dan Scaife, and Barbara Romero of the Springerville Ranger District. Marcia, Dan, and Barbara have each ridden the proposed extension with me and a GIS data base of this proposal is (was) available on the ASNF server. Please review and respond using email if any of the trail segments in these four .gpx files fail your review so I can respond in kind. Thank you.
