Proposed Action and Decision Framework

I oppose the fact that the final decision will be made by one official ?

Why would the public allow one person decide the fate of the Heber Wild Horse Herd ?

Forest Service Supervisors have little if any knowledge of the Wild Horses nor do they have the time to allocate in order to gain the knowledge which would take years . Most haven't even seen the Heber Wild Horses nor the part of the Sitgreaves where they free roam .

The decision made regarding the Heber Wild Horses Management plan should be made by a board comprised of not only Forest Service employees [Supervisor , range manager , ect] but a wild horse "expert" someone that has extensive knowledge of wild horse behavior, local wild horse advocates that have had years of hands on observation .

This is too extensive and the scope of this plan is way too great to have one person make the decisions .
