Proposed Action and Decision Framework

I oppose the fact that the final decision will be made by one official?

Why would the public allow one person decide the fate of the Heber Wild Horse Herd?

Forest Service Supervisors have little if any knowledge of the Wild Horses nor do they have the time to allocate in orderto gain the knowledge which would take years . Most haven[rsquo]t even seen the Heber Wild Horses nor the part of the Sitgreaves where they free roam .

The decision made regarding the Heber Wild Horses Management plan should be made by a board comprised of not a only Forest Service employees [Supervisor , range manager , ect] but a wild horse [Idquo]expert [Idquo] someone that has extensive knowledge of wild horse behavior, local wild horse advocates that have had years of hands on observation .

This is to extensive and the scope of this plan is way to great to have one person make the decisions .
