Title:

Comments: I want to be included on the mailing list for this project and be able to comment on subsequent federal actions. It seems the current solicitation for comments are on some of the artistic renderings of "the project" and a "master plan". So far In this public process I have not seen any analysis of impacts to the human environment nor any analysis of alternatives including the no action alternative. This is a controversial project and does not fall within any agency Categorical Exclusion regulations related to the Council of Environmental Quality requirements and NEPA
