First name: Amy

Last name: Kesten

Organization:

Title:

Comments: Ms. Tighe:

Please accept this as my **STRONG OPPOSITION** to any plan that would include: Motorized boats

Expanded parking Moving the salmon stream

During the tourist season Busses and cars should be parked remotely, with an electric shuttle system moving people closer to the visitor center and trails.

All of these proposed expansion plans will hurt our beautiful Mendenhall Glacier. It is a treasure I've loved and enjoyed during my 32 years living here. We need to save our environment and our backyard.

Sincerely, Amy Kesten
