Comments: These comments refer to the MGRA:

I found these plans in general will change a wonderful area in bad ways. I have lived in Juneau since 1977 near the Glacier. I take visitors there frequently and hike there often during the off-season months. I strongly believe money should not be spent to convert this natural area into a theme park. I could go into detail but will keep it short by saying all the specifics Laurie Craig mentioned in her "opinion" column (Juneau Empire-March 12,2020) are absolutely how I feel.
