Comments: Hi,

I am in full support of the proposed addition to add more camping and singletrack riding to Huckleberry flats OHV. Motorcycle riding is an exceptional family activity. Spending time with our families outdoors doing something fun is something we will all enjoy and remember for years.

I would like to see the forest service be able to take whatever action is needed to make this a success over the alternative 'do-nothing' approach.

We have been coming to the Oakridge area to enjoy the mountain biking for the last 10 years, & more recently have been enjoying the motorcycle riding there as well. We always hope that our trips to the local market and stores can help support the local economy while we enjoy the area. Thank you for our consideration.
