Title:

Comments: Thank you for the opportunity to express my support of the Stibnite Gold Project in Valley County. As a mother and realtor in Canyon County and have had the chance work on properties in several of the surrounding counties around Valley County.

Idaho ranks near the bottom for the percentage of its children who go on to college or post-secondary training. In my determination to reverse this trend and make Idaho a major competitor in education. I am encouraged by Midas Gold Idaho's commitment to educating our young people through its training initiatives and community engagement. Midas is also committed to hiring local and supporting training opportunities for Idahoans by working directly with schools, community colleges and the Idaho Department of Labor. I believe that Midas Gold's presence in our state will help Idaho to build a more skilled workforce that, in turn, will generate future opportunities for our children to compete in an increasingly global economy.

Midas Gold is truly a community partner and I have no doubt that their operations are going to be successful and in the best interest of all Idahoans. Please approve any required permits and adopt Alternative 2 of Midas Gold Idaho's Plan of Restoration and Operations. Further, I appreciate the Forest Service's work on this project and encourage you keep the comment period at the current 60 days. Thanks
