Comments: I am writing to share my support of the Stibnite Gold Project as outlined in Alternative 2 of the Draft Environmental Impact Statement.

Here is a little more about me, and why I believe this is the right project for Idaho and our country.

I first came to Yellowpine in 1991 and have been back many years since. I've seen Yellowpine change as it has gotten smaller over the years. It's still beautiful of course, but it's tough to make a living back here. The environmentally safe mining of gold at Stibnite will provide life changing financial opportunities for many Idaho workers and thereby allow Yellowpine to prosper. Please support the Stibnite Gold Project and allow Yellowpine to flourish.
