Comments: I am returning your phone call.

the last image I sent was taken in April 2019, 900ft above the Reunion Flats Campground, just east and above the Bighorn Boulder rock climbing site:

<https://www.mountainproject.com/map/114545102/bighorn-boulder-route-list>

The Bighorn Sheep used to have the whole sidehill all the way up to the Wigwams, now my observations suggest the Mountain Goats have this North Fork sidehill from Miles Creek NE and the Sheep have the area under the proposed lifts. Enclosed Photo: west of Miles Creek February 2018.

Please withdraw Teton Canyon expansion proposal. Thanks
