Comments: LETTER CONTENT FROM GOOGLE TRANSLATE:

I am writing to share my thoughts on Midas Gold Idaho's Stibnite Gold project. There are many reasons why I am excited for Midas Gold's project to come to life and I hope through my comments you will understand why.

Midas Gold prioritizes working with Idahoans. The company has shown a clear interest in understanding and addressing concerns surrounding the project. They have taken the time to work with the community to develop solutions that work for everyone. For example, the company worked closely with Yellow Pine residents, recreationists and snowmobiles to find out how to maintain access to certain backcountry roads. The changes the company made are included in Alternative 2. The company didn't have to, but they did it because they knew it was the right thing to do. Working with stakeholders at all levels, they have come up with a plan that will not only help the Idaho economy, but help restore a legacy site. Their plan has significant community support.

I appreciate your time and thoughtfulness. The USFS has plenty of tools to review the DEIS and allow for comment within the 60-day timeframe. For the reasons I mentioned in my letter above, allow the Stibnite Gold Project to use Alternative 2 and let Idahoans see the benefits of this important project.
