Comments: To Whom it May Concern,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's Draft Environmental Impact Statement. Public participation is a huge part of the permitting process and I appreciate the opportunity to share my thoughts.

As a native Nevadan now living in Idaho, I have seen the benefits and prosperity gold mining can bring to a community when proper conservation and reclamation are priority number one. Reclaiming the old mine site and restoring the fish runs are paramount, and it seems as though Midas Gold has a plan moving forward for doing so.

I would like to see wages in our state improve, and the quality of education. I feel this project will help in both regards.
