Comments: I am mountainbiking for the last 25 years and I own several analog bikes and , recently I bought 2 e bikes, one for my daughter and one fir myself. I am 52 years old now and in great shape but i am finding myself riding more and more the Specialized levo. I love nature and i m biking 3 days a week. I believe class 1 ebikes should not be considered motorized vehicles and be aloud to use non motorized trails (single track,double track etc).
