Organization: Red Rock Jeep Tours

Title:

Comments: Great presentation well organized and informative

My comment is related to Soldier Pass Trail

Currently Red Rock Jeep has assisted in removing traffic such as hiking, groups, etc to some of our other trails, ie reduce congestion on Soldiers Pass

Currently Soldiers Pass is receiving extensive attention but fails to have the same amount of commercial traffic as Pink Jeep's Broken Arrow despite both being similar ie. passing thru residential property, trail classified as semi-primitive, etc. they are treated differently. NFS should correct this

Therefore we recommend that both trails be treated equally with similar restrictions

We would also volunteer to restrict number of jeeps on trail at once reducing the encounter amount by adding more trail counts annually. As in the past this would be advantageous to help police the trail all year long. As in the past, when we have been absent, tomcars and other recreational vehicles have torn up the trail unnecessarily.
