Title:

Comments: I am an equestrian, mountain biker, hiker, and runner. I am wholeheartedly opposed to opening non-motorized trails to electric bikes. E-bikes continue to evolve, with some of them really being more of an E-motorcycle with a pedal option. These types of bikes will increase conflicts between users and cause increased erosion to trails. They should only be allowed in specific designated areas after a thorough environmental and user evaluation. Simply opening all non-motorized trails to E-bikes is not a good policy.

Photo attached of a new E-bike. These do not belong on historically non-motorized use trails. If photo does not load you can find it on treehugger.com.
