Comments: To whom it may concern,

I, along with many others here in Valley County are in favor of Midas Gold, and see it as a real positive for our communities. The pros immensely out weight the cons, as long as there is continual oversight by government agencies to ensure there are no catastrophe[s] that would impact the environment. Midas Gold has proven their commitment to local communities and the environment thus far, and I would imagine they would continue to do. Living in this part of Idaho, we the people would uphold that they do, and I believe Midas Gold understands that. So in short, please allow them to open Stibnite, I don[rsquo]t believe any of us would be sorry.

Most Respectfully,

Name: Riley Wilkins
