Comments: Please see attached comment letter from Midas Gold Idaho, Inc. Previous

Midas Gold comment submittals have addressed specific environmental resources (Air, Water, and Fish), and this attachment address comments associated with (1) remaining resource areas and (2) the Executive Summary of the DEIS. Midas Gold Idaho, Inc. (Midas Gold) appreciates the opportunity to provide comments on the Draft Environmental Impact Statement (DEIS). Clearly, the document represents a substantial effort by many individuals to compile and convey a very large volume of information and analysis regarding the Midas Gold proposed Stibnite Gold Project (SGP). The synthesis of hundreds of documents developed from a much greater multitude of data values, statistical analyses, and modeling projections into a single draft product is a noteworthy accomplishment, and Midas Gold is pleased to have been a stakeholder in its development.

In the attached comments, Midas Gold wishes to respectfully offer its perspective and insights to assist in clarifying and improving content for the Final Environmental Impact Statement (FEIS). Whereas previous Midas Gold comment submittals have addressed specific environmental resources, the attachments provided with this cover letter address comments associated with (1) remaining resource areas and, (2) the Executive Summary of the DEIS. For your convenience, Attachment A includes comments that are provided in a tabulated format that is organized by resource area and includes references to each appropriate subsection heading, page number, and paragraph. Attachment B is in tabular format as well and includes the DEIS Executive Summary Table ES4-1 original text (in grey) with additional clarifications (in white) that reference or summarize applicable information that is included in the DEIS documents.

Thank you for considering Midas Gold's comments. Please contact me if you any questions.
