Title:

Comments: In a statement against this DEIS and the Stibnite Mine Project, the Boise High Green Club shared photos dressed up as gold diggers (a person who marries for money). If you accept this DEIS, Payette National Forest is being a gold digger, marrying for money, selling herself off for a few coins in the hat. Please consider the voice of youth, who are public land owners and future taxpayers, as you make your decision.

Yours Sincerely,

Shiva Rajbhandari

Boise High Green Club President
