Comments: Hello,

Thank you for organizing the Upper Wenatchee Project. It will be great to maintain the forest better in that area since the fires have been a major issue. It is also great to hear that the erosion and health of the river will be taking into account. During the meeting, recreation was not addressed. I am concerned that this project will affect the motorcycle trails in the area. Mad River is home to some of the best enduro trails in the PNW. Can you please comment on how the project will affect the trails? Is there an opportunity to incorporate trail work and bridge repairs into this project? This could potentially be a great way to team up with local motorcycle organizations. Many riders want to be good stewards of the land and would enjoy the opportunity to help.

Thank you
