First name: Dan

Last name: Williams

Organization: Teller County

Title:

Comments: [TEXT COPIED FROM ATTACHED FILE]

Oscar reading this string. As you know I sit this board and still do as a county commissioner.

We will look internally to see which staff office has proponency for posting and getting information out. Also Commissioner Stone is very involved as a private citizen with Turkey Tracks

Good to see the passion across the team... it's important to us

-----

Are you planning a Stakeholder meeting about this plan before or after your public meetings? Your plans affect all our agencies and being blindsided does not really sit well since our agencies must deal with your actions or is USFS going to deal with all the response issues that the USFS is going to inflict?
